Learning event – 16 March 2023
Intro to RoundBaltic project
By Nils Daugaard, EC Network

Sustainable Energy Investment Forums (SEI Forums) – the mother initiative of RoundBaltic

DG ENER – EASME initiative since 2016, multiple events across the EU

Aim: creating **dialogue** and enhancing the **capacity** of and **co-operation** between public and private stakeholders including finance sector; narrowing **investment** gap in sustainable energy

Developing ideas and recommendations for energy efficiency finance actions

Form: a series of **public conferences** (e.g. annual Covenant of Mayors Investment Forum – Energy Efficiency Finance Market Place), **national roundtable** discussions and **webinars**,

Event Leads Roundtables: EC Network and Climate Alliance (sub contractors: EnergyInvestment)

Two phases: 2016 – 2019; 2019 - 2023

SEI Forums Overview

Events done 2017-2020

Sustainable Energy Investment Forums

16 EU Member States hosted national events so far

Member State (latest event type & date)

- ➢ Estonia
- ➢ Finland
- ➢ Hungary
- ➢ France
- ➢ Lithuania
- ➢ Luxembourg
- ➢ Netherlands
- ➢ Portugal
- ➢ Slovakia
- ➢ Slovenia
- ➢ Sweden

SEIF
Sustainable Energy Investment Forums

RoundBaltic overall

- ❑ **Follow up on previous SEI Forums roundtables in Poland, Latvia and Denmark**

- ❑ Target sectors: public buildings, private buildings, social housing, SME & industry sector

- ❑ Expected key outcomes:
  - ▪ Intervention strategies per country /region
  - ▪ National & regional roundtables with a view to generate ideas and recommendations for energy efficiency finance
  - ▪ Enabling actions to transform the ideas and recommendations into improved framework and initiation of concrete investments
  - ▪ Evaluation and learning of actions
  - ▪ Sustaining of the energy finance structures

- ❑ We organise exchange of methods and experiences throughout the Baltic Sea region and EU wide (incl. news bulletin of the project's learning events)

Investment framework
- Analysis of needs & opportunities
- Developing tools for market operations
- Establishing stakeholder forums
- Intervention plan for the project activities in each target country

Evaluation and exchange
- Learning of the performed activities for future actions
- Exchange within and across the countries and regions
- Refining the intervention strategies according to the lessons learned

Roundtables
- Bringing stakeholders together across the energy efficiency and financial sector
- Discussion on key topics
- Making ideas and recommendations for actions to give investment momentum

Enabling actions
- Follow-up of the ideas and recommendations of the roundtables
- Typical actions may include putting in place one-stop-shops and other investment oriented initiatives
- This goes hand in hand with efforts to improve the investment framework and using tools for market development

ROUNDBALTIC
Bridging Energy Efficiency and Finance
